

How does a teacher receive an 'Assignment'?

There are several ways a teacher can be notified that a student has submitted an 'Assignment':

- they will receive a **message** in Moodle *and/or*
- they may receive an **email** *and/or*
- there may be a 'marking' **block** that appears on the teacher's home page listing students' work that has been submitted and is awaiting their attention *and/or*
- a teacher may, at any time, click the '**View/grade all submissions**' button within any 'Assignment'

Each of the above will lead the teacher to a screen that looks like this:
